Cabin

Checklist

Location / Client _____

Project New Project Substitute AC Unit, Type _____

Industry Of Application Steel Mill Coking plant Electrolysis
 Aluminyum plant _____

Crane Type Foundry Crane Slab Crane _____

Dimensions (mm) _____ length _____ width _____ height

Insulation/Wall Composition (Type+Thickness) _____

Cabin Glazing Area _____m² Single Glazing Single Glazing, Radiation Protected
 Double Security Glazing _____

Radiation Heat Low Normal High in Peaks

Ambient temperatures around AC-unit during cooling operation:

- Avarage/ Minimum ambient temperature _____ °C / _____ °C
- Maximum temperature _____ °C during _____ °C minutes/ hours

Desired temperature inside Cabin _____ °C

Electrical heate desired? Yes No

Milieu with harmful gases, _____ (e.g. CO, ...)

Number of working in the cabin _____

Voltage _____V Frequency _____Hz Control Voltage _____V

Control Voltage _____V

Preferences for Compacts or Split type AC-units: Kompakt Split No Preferences

Location of outdoor unit: Wall Roof _____

Specific local conditions? _____ Special material standards? _____

Already installed FrigorTec CRANEFİRİGOR™ units? _____
